Next Meeting - Tuesday December 17th, 2024

3 CE's Provided by Asteto Dent Labs

In cooperation with DC Clinical (A DC Dental Company)

& The Iconic Implant Institute @ North Jersey Oral & Maxillofacial Surgery

**20% of the dental offices in the United States have experienced embezzlement.
The other 80% never looked for it.**

Embezzlement: It Can Happen in Your Practice! Dental office embezzlement happens far more frequently than most dentists realize.

“Dr. Jones loved her practice, enjoyed her patients, and felt very lucky to go to work every day and do what she loved to do. She also was well aware that a major reason her work was so enjoyable was because her office manager handled the financial side of the practice effectively and efficiently. She could enjoy doing what she did best — helping patients improve their oral health — while not worrying about the financial details. In fact, she frequently bragged to other dentists about how lucky she was to find such a hard-working office manager. She was saying that right up until the day she found out the office manager had embezzled \$150,000 from her practice!”

... Dentistry IQ/Penny Anderson, Senior Editor (Retired)

David J. Goodman, CPA, MST (Partner/Dental Practice Leader, PKF O'Connor Davies) will discuss what to look for because there are signs that should raise suspicion. As far as Prevention, there are office protocols that will discourage embezzlement. What do you do if you suspect someone is embezzling. What should you do when you don't expect it but you want to make sure. What about if it is a long time employee/friend. This program you cannot afford to miss. **It happens every day!**

The Iconic Implant Institute

@ North Jersey Oral & Maxillofacial Surgery, 81 Route 4 West, Suite 201 Paramus, NJ 07652

Registration/Networking 6:30 PM - Lecture 7:00 PM
